I worte patch for Calendar block in "My Page" to add following features.

- hide issues not assigned to me
- hide closed issues

I belongs to many projects in my company and Calendar becomes too large and confusing me because too many issues displayed on the Calendar. So this patch is very useful for me.

I think there must be many people who is troubled by too large Calendar block in My Page.

Oops, line feeds are automatically inserted to my previous submission.

I uploaded _calendar.rhtml.patch.

Here is a patch for latest Redmine.

BUG: cannot save the status of chexboxes.

Index: app/views/my/blocks/_calendar.rhtml

{:calendar => calendar } %>

Ca you made a patch instead of a file.

Still open.
This patch isn't implemented in Redmine 2.1.2-devel.

Maybe this could be solved to with, or maybe in addition to #12223.
