説明

Small patch for adding formattet Text in overwies.

See Ticket here: http://rubyforge.org/tracker/index.php?func=detail&aid=17583&group_id=1850&atid=7160

journals

new patch including Michael's changes.

this patch changes the description on activities page.
instead of linking the complete comment the author is now
linked. format: link([author]) [time] [revision]

so you have all important informations at a glance.
so much clearer, for me at least.

should only effect repository changes.

this patch supersedes all previous attached and posted patches.

Patch for full textilization:
