説明

We need two additional options for each custom field of an issue:

1st the visibility of a custom field is dependent on a specific state of workflow 2nd and the attribute "required field" is dependent on a specific state of workflow

We think it would be an interesting enhancement for redMine !?

journals

see also issue #285

+1

Probably to be able to set HTML's attributes on per-field basis...

Like "disabled" or "style="background-color:red"
