<b>説明</b>			
<p>The Home and My Page pages should be merged into one. The easiest way to do this IMHO would be to completely drop the Home page and make My Page the default. To replace the current Home page simply create a way of customizing the default My Page contents, which would be viewed by anyone not logged in (presuming Authnet. Required is not enabled).</p>			
<p>journals</p> <p>Attached is a file to list the latest projects, suitable for the My Page view. Here are the changes required for the my_controller.rb file:</p> <ul style="list-style-type: none"> <li>• 'documents' =&gt; :label_document_plural</li> <li>• 'documents' =&gt; :label_document_plural,</li> </ul> <p>+           'latestprojects' =&gt; :label_project_latest</p> <p>Here's a custom block for the My Page to display the welcome text. Here's the diff to make it work:</p> <p>Index: app/controllers/my_controller.rb</p> <pre>===== --- app/controllers/my_controller.rb (revision 721) +++ app/controllers/my_controller.rb (working copy) @@ -24,7 +24,8 @@ </pre> <ul style="list-style-type: none"> <li>• 'documents' =&gt; :label_document_plural</li> <li>• 'documents' =&gt; :label_document_plural,</li> </ul> <p>+           'welcome' =&gt; :setting_welcome_text</p> <p>You can do exactly the same thing using "Redmine Start Page plugin":<a href="http://www.redmine.org/plugins/redmine_startpage">http://www.redmine.org/plugins/redmine_startpage</a></p> <p>Install, and config [ contoller= my , action = page ]</p>
