説明			
<p>I love redmine. I just have one major feature request:</p> <p>Project Open (http://project-open.org/) has integrated ganttproject, which is a very nice open source tool like MS Project:</p> <p>http://ganttproject.biz/</p> <p>I really like how you can download/upload the project plan. In addition, having dependencies and subtasks is a crucial addition.</p> <p>Thanks for everything!</p>
