説明
This is a translation of the en.yml and calendar-en.js in v 0.6.3 (and int the 0.6.4 release - I think those are identical).
It lacks some of the new strings in trunk - will get those in later (maybe when 0.7 lang-files are "locked"?)

journals
Thanks for your work.

0.7 lang files will be "locked" after the 0.7 release candidate that should be released next week.

Applied in changeset r1289.
