説明 I have yet another idea to make the activity view more readable. Right now we have this: 12:02 Feature #1034: Test Guide (Resolved) sorry for double posting. Philippe Lafoucrière I think it would be more readable like this: 12:02 Resolved: Feature #1034: Test Guide sorry for double posting. Philippe Lafoucrière Again a very small change but should help a bit when skimming the list. What do you guys think?			
journals PS: The event should probably also be <i>bold</i> or a different color so it stands out. +1 The status is now just after the issue number (r1505).
