説明			
<p>Is it possible to make the author-column sortable in source:/trunk/app/views/issues/_list.rhtml ? Right now I only got it to work with @author_id@, which is not the best solution:</p> <p>in source:/trunk/app/models/query.rb (line 100):</p> <pre>QueryColumn.new(:author, :sortable => "#{Issue.table_name}.author_id")</pre>			
journals			
<p>I hope that author-column not only sortable but also groupable. Such as:</p> <pre>@QueryColumn.new(:author, :sortable => "#{Issue.table_name}.author_id", :groupable => true),@</pre> <p>Added in r7843.</p>
