<b>説明</b>			
<p>Here in Indonesia a substantial proportion of people have only one name - effectively their first name, and so making both first and last name required fields is inconvenient.</p> <p>I would be happy for last name to be optional - I would also be happier if users were sorted by first name, but understand that in Francophone countries that does not work very well.</p>

<p>I would also be happier if users were sorted by first name, but understand that in Francophone countries that does not work very well.</p> <p>I have a patch that I can clean up to allow user name sorting to be done based on a Setting. The choices are to sort by Lastname, Firstname, or Username. I'll try to get it cleaned up and submitted.</p> <p>I would like to have this option (make lastname optional) as well. Specially in a project that only uses nicknames it is handy.</p>			
related_issues			
relates,Closed,1708,'Assigned to' list sorts by id, not name			
relates,New,29757,Make "First name" and "Last name" optional (not required) in user's settings
