説明			
<p>"I don't want to be notified of changes that I make myself" is checked in my user settings, and seems to work correctly when "Autofetch commits" is used, and "Repository" is clicked.</p> <p>However! It seems that the email notifications get sent out when using a cron job to run @ruby script/runner 'Repository.fetch_changesets' -e production@.</p> <ul style="list-style-type: none"> • Database: MySQL 5.0.45-log FreeBSD port: mysql-server-5.0.45_1 • Ruby: 1.8.6 (2007-09-24 patchlevel 111) [i386-freebsd7] • Rails: 2.1.0 • Redmine version: "Redmine 0.7.devel (MySQL)" • SCM: svn, version 1.5.1 (r32289) 			
journals			
same problem here, using the dev branch.			
This should be fixed by r2225.
