説明

I use Redmine at <http://rocky.kyanh.net/>. I translate about 90% of user interfaces into Vietnamese. Hope this helpful.

I will update the translation if possible

journals

more strings translated

calendar-vn.js added (missing this files caused bug)

updated (393 lines translated / 643 lines in en.yml)

Committed.

I can't add lang-file for plugin blog because it is not in official tree. Ask maintainer of this plugin to do it.

vn.yml updated (please ignore redmine_blogs/lang/vn.yml)

Applied in r2044.

I will push my translations in my branch (<https://github.com/icy/redmine>). In redmine-1.x there are many strings to translate :P
