説明

Create a project and disable all but one tracker (e.g. support and feature disabled, bug enabled). Note that the page overview will still list the number of support and feature tickets ("0 open on 0" for both). These shouldn't be displayed at all, yeah?

app/views/projects/show.rhtml, line 24

journals

I think you have subprojects with this tracker enabled, don't you?

Mm... true. Archived, but there. Not sure if archived projects should affect this, but that's a design choice, not a bug, eh?

It's more like a bug. I'll fix it.

Fixed in r2311.
