Mercurial (Hg) integration doesn't work if redmine is installed in folder path containing space. The problem is because the template file path is not properly quoted. (e.g. "C:/Program Files/BitNami Redmine Stack/apps/redmine/lib/redmine/scm/adapters/mercurial/hg-template-1.0.tmpl")

affected branch: 0.8-stable
affected revision: svn r2670
affected file:
http://www.redmine.org/projects/redmine/repository/revisions/2670/entry/branches/0.8-stable/lib/redmine/scm/adapters/mercurial_adapter.rb
affected line: 108

Note: I am beginner in Ruby and redmine. The patch I attached will only quote the path and won't convert forward slash to backslash. Please adjust the patch as deemed necessary.

journals

the syndrome is the following error when trying to access Mercurial repository

undefined method last' for nil:NilClass
RAILS_ROOT: C:/Program Files/BitNami Redmine Stack/apps/redmine
lib/redmine/scm/adapters/mercurial_adapter.rb:72:ininfo'
lib/redmine/scm/adapters/abstract_adapter.rb:150:in retrieve_root_url'
lib/redmine/scm/adapters/abstract_adapter.rb:54:ininitialize'
app/models/repository.rb:41:in new'
app/models/repository.rb:41:inscm'
app/models/repository/mercurial.rb:56:in `fetch_changesets'

app/controllers/repositories_controller.rb:69:in `show'

added patch

Fix committed in r2679.

Thanks for pointing this out.

Merged in 0.8-stable in r2681.
