| 説明 | | | |
| I would like to be able to copy a custom query/filter. | | | |
| I often set-up filters that are identical except for one filed (eg. assigned to). It would be handy to be able to duplicate an existing filter. | | | |
| journals | | | |
| Was a little bored so wrote a patch for this, hope someone likes it ;) | | | |
| Hmm, can't work out how to remove pre-existing attachments, here's a new improved one ;) | | | |
| Thanks for that. One of our developers has also worked out a solution - which he reckons is better. ;-) | | | |
| I'll try to make sure he has time to share it one day soon. | | | |
| Cool, I imagine a patch would be appreciated ;) | | | |
| Just use this plugin https://bitbucket.org/svsool/query-duplicate-redmine-plugin | | | |
| In my eyes this issue duplicates issue #3606 and should thus be closed/rejected. | | | |
| | | | |
| | | | |
| | | | |
| yes, ths feature would save time | | | |
| Vladimir - did you see this link - already possible - #3606#note-13 | | | |
