説明 See the attached image, 2 revisions are mentioned, r34525 and r34527, but only r34527 is hyper-linked. The commit comment was entered as: Merge r34525,r34527 Using: Redmine-0.8.4 Subversion-1.6.3 Apache-2.2.9 Rails-2.1.2			
journals Russell Hind wrote: Merge r34525,r34527 Just a hint: have you tried it using a space between the comma and the new revision-id like: Merge r34525, r34527 HTH, Mischa. Thanks Mischa, I will try that next time but getting everyone to remember that here won't be the easiest. Ticket numbers work with just a comma between them so hopefully this can be fixed for revision numbers too. Fixed in r2804. Merged in 0.8-stable in r2881.
