説明

Ability to create Tickets Category/Subcategory hierarchy.

journals

You could just enter them in more detail to begin with?

- Reports / Canned
- Reports / Monthly
- Reports / Score Cards
- Reports / Adhoc

The other option is to run subproject for a category.

So you would define a subproject 'Reports' with categories: Canned, Monthly, Score Cards, Adhoc.

Kind regards

Thanks Adam for your answer,

I saw this feature will be implemented in 0.9 so i'll waiting for it release.

so, is it implemented already? I only see sub-projects, but not sub-categories.

+1

I need this feature~

Me too, please add this feature..

+1 Please add this feature. Must have for me.

+1

+1 for the sub-categories

+1 on subcategories.

+1!
