説明

I frequently will download a file, then not know what issue it belonged to.

I would like the search feature to search the names of file attached to issue.

I'd like to have a checkbox in the search to search only file names.

ie. I downloaded Eric's patch for issue status/percentage done, and I couldn't simply find the ticket again. Try it, search redmine.org for:
File Name: 0001-Adds-an-option-which-will-automatically-update-an-is.patch

journals

+1 !

#4238 Is also useful, and would be make this ticket less urgent.

+1

+1 This would be really useful.

+1 It should be possible to find attached files by matching part of their filename. If Search digs into this part of the index should be controlled by a checkbox.

+1 Would be very useful, is it that hard to implement?

+1 here

+1

Feature added in r13857.

It's been over 5 years coming. Thank you! This is wonderful.
