説明

in this file at :

```
xml.issues :type => 'array' , :count => @issue_count do
```

The ":count" parameter will cause an error calling issues from activereource :

```
can't typecast "1"
["/var/lib/gems/1.8/gems/activesupport-2.3.5/lib/active_support/core_ext/hash/conversions.rb:182:in `typecast_xml_value'", "/v
ar/lib/gems/1.8/gems/activesupport-2.3.5/lib/active_support/core_ext/hash/conversions.rb:208:in `typecast_xml_value'", "/var/li
b/gems/1.8/gems/activesupport-2.3.5/lib/active_support/core_ext/hash/conversions.rb:199:in `inject",
```

If you delete this parameter, all is working fine.

My configuration

```
Ruby version      1.8.7 (i486-linux)
RubyGems version  1.3.5
Rack version      1.0
Rails version     2.3.5
Active Record version  2.3.5
Active Resource version 2.3.5
Action Mailer version 2.3.5
Active Support version 2.3.5
Application root  /var/www/redmine
Environment       development
Database adapter  postgresql
Database schema version 20091227112908
```

REST API bug?

I tried to run the script http://www.redmine.org/wiki/redmine/Rest_api_with_ruby. Displays an error message:
/home/artem/.gem/ruby/1.8/gems/activesupport-2.3.5/lib/active_support/core_ext/hash/conversions.rb:182:in
`typecast_xml_value': can't typecast "2" (RuntimeError)

I deleted :count => @issue_count in app/views/issues/index.xml.builder and all earned.

I wrote a script rest.rb:

```
require 'rubygems'
require 'active_resource'
```

<pre> class Issue < ActiveResource::Base self.site = 'http://www.redmine.org/' end issues = Issue.find(:all) puts issues.first.subject \$ ruby rest.rb /home/artem/.gem/ruby/1.8/gems/activesupport-2.3.5/lib/active_support/core_ext/hash/conversions.rb:182:in `typecast_xml_value': can't typecast "1794" (RuntimeError) ----- I wrote a script rest2.rb: require 'rubygems' require 'active_resource' class Project < ActiveResource::Base self.site = 'http://www.redmine.org/' end projects = Project.find(:all) puts projects.first.name \$ ruby rest2.rb Redmine It works! ----- thats what i said, if you delete the :count parameter, all is working fine ! ----- I've removed the count attribute in issues.xml. It's not ideal because of the pagination won't show all of the issues but it breaks ActiveResource. Here's the full error for the search: RuntimeError: can't typecast "368" from /usr/lib/ruby/gems/1.8/gems/activesupport-2.3.5/lib/active_support/core_ext/hash/conversions.rb:182:in `type xml_value'     from /usr/lib/ruby/gems/1.8/gems/activesupport-2.3.5/lib/active_support/core_ext/hash/conversions.rb:208:in `type xml_value' from /usr/local/lib/site_ruby/1.8/rubygems/custom_require.rb:31:in `inject'     from /usr/lib/ruby/gems/1.8/gems/activesupport-2.3.5/lib/active_support/core_ext/hash/conversions.rb:207:in `each' from /usr/lib/ruby/gems/1.8/gems/activesupport-2.3.5/lib/active_support/core_ext/hash/conversions.rb:207:in `inject'     from /usr/lib/ruby/gems/1.8/gems/activesupport-2.3.5/lib/active_support/core_ext/hash/conversions.rb:207:in `type xml_value' from /usr/lib/ruby/gems/1.8/gems/activesupport-2.3.5/lib/active_support/core_ext/hash/conversions.rb:164:in `from '     from /usr/lib/ruby/gems/1.8/gems/activeresource-2.3.5/lib/active_resource/formats/xml_format.rb:19:in `decode' from /usr/lib/ruby/gems/1.8/gems/activeresource-2.3.5/lib/active_resource/connection.rb:138:in `get'     from /usr/lib/ruby/gems/1.8/gems/activeresource-2.3.5/lib/active_resource/base.rb:639:in `find_every' from /usr/lib/ruby/gems/1.8/gems/activeresource-2.3.5/lib/active_resource/base.rb:582:in `find' from (irb):5 from :0 </pre>	
<pre> related_issues relates,Closed,6140,REST issues response with issue count limit and offset duplicates,Closed,5226,'can't typecast' in REST API for issues </pre>
