説明			
In @projects_controller.rb@, line 297:			
<pre> @issues_by_version = {} unless @selected_tracker_ids.empty? @versions.each do version issues = version.fixed_issues.visible.find(:all, :include => [:project, : :conditions => {:tracker :order => "#{Project.tab e}.id") @issues_by_version[version] = issues end end @versions.reject! { version !project_ids.include?(version.project_id) && @issues_by_version[version].empty?} if @@selected_tracker_ids.empty?@ is @true@, @@issues_by_version@ will always be @{}@ and @@issues_by_version[version].empty?@ yields a @NoMethodError@. Instead of @empty?@, @blank?@ should be used. Patch is attached. </pre>			
journals			
Fixed in r3555. Thanks.			

履歴

#1 - 2022/05/10 17:23 - Admin Redmine

- カテゴリを Roadmap_22 にセット

- 対象バージョンを 0.9.4_18 にセット
