説明			
<p>RedmineReminderEmails will just send out notices to everyone. I would suggest making this a personal setting on My account page (like other notifications), allowing to set up the following:</p> <ul style="list-style-type: none"> • send/don't send ticket reminders (checkbox); • frequency (daily/weekly/custom); can be done like in Hudson - a pure text input allowing cron syntax, defaulting to "0 8 * * *" (daily at 8am); • period before the Due/Start date to send out reminders - just like the days switch; • tickets to process(two multiselect listboxes - Trackers and Statuses). • use only Due or only Start date, or both (checkboxes). <p>Do we have anything cron-like internally?</p>
