**説明**

It seems that many of locale files are missing "cant\_link\_an\_issue\_with\_a\_descendant".

I'm using Redmine with Japanese, and it is missing.

Thanks.

Can you provide the correct translation so that we can integrate it in the next version ?

Thanks for reporting.

Thank you for reporting. Now you can translate this string in  
source:trunk/config/locales/ja.yml

Attached is the Japanese translated file.

Please check it.

Thanks!

Merged into 1.0-stable for release in 1.0.2
