<b>説明</b>			
Pulled from #6191, "note-3": <a href="http://www.redmine.org/issues/6191#note-3">http://www.redmine.org/issues/6191#note-3</a> :			
Eric Davis wrote:			
... I left the bulk delete message alone, it already prompts about multiple issues.			
It indeed does prompt about multiple issues ( <u>Are you sure you want to delete the selected issue(s) ?</u> ), but it lacks mentioning that all subtasks of the selected issue(s) are deleted also.			
journals			
Fixed in r5495. Example:			
_Are you sure you want to delete the selected issue(s)?			
This will also delete 1 subtask(s)._			
As suggested in #8418, this message could be reused when deleting an issue from the issue page ?			
My bad, this has been done, nice work.			
Is this in the latest stable release?			
Sorry...I see the target version up there.
