説明 The REST API should provide a way to retrieve information about current user (the user whose credentials are used to access the API).			
journals Added in r4544. The current user is available at @/users/current.(xml json)@. Thank you very much ;)			

履歴

#1 - 2022/05/10 17:20 - Admin Redmine

- カテゴリ を REST API_32 にセット
- 対象バージョン を 1.1.0_20 にセット
