I saw some problems with recent darcs versions.

As we don't have much (if not none) feedback about the darcs adapter, I guess that very few people uses Redmine+darcs.

Wouldn't it be reasonable to drop support for darcs in the Redmine core? And maybe move the existing code to a plugin.

I start to resolve this issue.

Fixed by r4749 in trunk and r4751 in 1.1.1.
