説明 Hello I was thinking about a report feature, because we are trying to use redmine for capacity planing also. My idea for a new feature is that where you can report the logged hours, it would be a good thing if you can do this for estimated hours also. If it's possible it would be great if someone can do this Thanks, Regards Erik Hetényi			
journals Removing issue-relations with #2268 and #1374 since they are describing another, unrelated feature (adding estimated time summaries to <i>issue lists</i>). +1
