説明

Is it possible to add group of auther for filtering of tasks?

journals

Please use <http://demo.redmine.org> for testing purposes.

Sorry, my bad.

Duplicate of #1567 (which is fixed with r7843 for Redmine version#36).

I think it's not closed.

Alex Belyaev asked to have "Author Group" in the add_filter_select field. We can filter with "Assignee group" but we can't filter with "Author Group". So we can't have the list of issues created by members of a selected group.

Im with redmine 2.2

Maybe we can do this but I don't how to...

Sorry for my english

We can filter with "Assignee group" but we can't filter with "Author Group".

Exactly.

But, -"Author Group"- "Assignee group" is implemented by #2964 r6306.

So we can't have the list of issues created by members of a selected group.

Feel free to create a new issue.

I reopen this issue.

OK Thanks. "Author group filtering" is the good title.

+1

+1 could be very useful IMO

"Plugins Directory » Group Of Authors Filter":

http://www.redmine.org/plugins/group_of_authors_filter
