説明

Currently on a roadmap page, e.g <http://www.redmine.org/projects/redmine/versions/27> when you chose Issues by Category there is no items for 'None' category (tasks that are not belong to any category).
And I think 'None' category should be the first in the list and/or be e.g. italic to differentiate it from the real categories.

journals

The similar problems can be found here <http://www.redmine.org/projects/redmine/issues/report>
Sections Assignee, Version, Category do not have items 'None' in their lists.

And on <http://www.redmine.org/projects/redmine/versions/27> Issues by:Assignee omits "None" too.

This has been reported and patched already almost three years ago as part of patch #1671:

[...]

- Issue metrics previously didn't show data for issues having chosen attribute not assigned. This is fixed here, see that [Not Assigned] group in screenshot; [...]

It didn't made it into the core yet, but it would certainly be a useful extension of the current queries-UI that is available on both the here-above mentioned views (/projects/redmine/versions/version_ID and </projects/redmine/issues/report>).

Fixed in r10771.

File "trunk/app/views/versions/_issue_counts.html.erb":
http://www.redmine.org/projects/redmine/repository/revisions/10771/diff/trunk/app/views/versions/_issue_counts.html.erb has mixed tabs and spaces indentation in newly added code.

Thanks for the fix.

Fixed, thanks.
