説明

Attachment max. size should be as Attachment max. size (zero for disabling feature)

journals

issue should be renamed to "Allow to disable feature attachment"

I don't have permission for that

We will have new custom field format "File" in Redmine 3.4.0 (#6719). It would be great if we can disable default "Files" field by tracker like #25052.

We can configure to show specific field name (e.g. "Screenshot", "Error log", "Patch" ...) instead of generic "Files" if this feature is implemented.

I investigated, but I abandoned it.
I did the following things.

- 1. Add attachment to tracker.

```
diff --git a/app/models/tracker.rb b/app/models/tracker.rb
index d90ab3e15..9c3c9a1a8 100644
--- a/app/models/tracker.rb
+++ b/app/models/tracker.rb
@@ -21,7 @@ class Tracker < ActiveRecord::Base
  CORE_FIELDS_UNDISABLEABLE = %w(project_id tracker_id subject priority_id is_private).freeze
  # Fields that can be disabled
  # Other (future) fields should be appended, not inserted!
```

- 2. CORE_FIELDS = %w(assigned_to_id category_id fixed_version_id parent_issue_id start_date due_date estimated_hours done_ratio description).freeze
- 3. CORE_FIELDS = %w(assigned_to_id category_id fixed_version_id parent_issue_id start_date due_date estimated_hours done_ratio description filename).freeze CORE_FIELDS_ALL = (CORE_FIELDS_UNDISABLEABLE + CORE_FIELDS).freeze

before_destroy :check_integrity

- 1. Hide the attacheded file area of [issues/new] and [issues/edit].

```

However, there seems to be more considerations.
for example,

- Reflects "read only" and "required" to attached files..
- Disable drag & drop of attached files.

etc.
