説明

Private issues information shows up on Activity page for unauthorized users.

Steps to replicate:

- Create a regular issue.
- Edit the issue and set the private checkbox
- log in as a user without permission to see private issues (non-administrator)
- go to activity page and you will see all relevant info
- go to issues page and issue is not visible and cannot be found using search

journals

Guess it could be blocking for version:1.2.0 release.

Fixed in r5944.

Merged in 1.2-stable.

related_issues

relates,Closed,7414,Private issues

relates,Closed,9067,Private tasks - wouldn't be shown in activity
