説明

Follow-up to #10607

Our company is using Lotus Notes 8.5.1, don't know which version our Domino server are.
Upon inspection, our system uses "Auto-submitted: auto-generated".

I suggest to automatically exclude "auto-generated" as well.

journals

Committed in r9924. Any @Auto-Submitted: auto-*@ header is now ignored.

Merged in 1.4 and 2.0.
