Now it is only groups:

- Referencing keywords
- Fixing keywords

with actions:

- Applied status
- Done

h3. It will be good to add extra keywords groups for processing with different actions e.g.

- Processing keywords Applied status: In Progress ¦ Done: 20%

h3. Or extra features

- Testing keywords Applied status: Testing ¦ Done: 90% ¦ Assignee: Testing Team
- Processing Plus keywords Applied status: In Progress ¦ Done: +10%
- Bounce keywords Applied status: Feedback ¦ Assignee: Ticket Owner

journals

It would be great if we can add the item "Assigned" to the keywords as the possibility exists for example to send tickets "closed" to the test team
