説明 http://www.redmine.org/projects/redmine/repository/revisions Revision set "1" and click OK button, "Page not found" returns. journals Form method issue, POSTing instead of GETing. Started POST "/projects/xxxx/repository/revision" for 10.132.21.139 at 2012-10-24 10:01:50 +0200 ActionController::RoutingError (No route matches [POST] "/projects/xxxx/repository/revision"): actionpack (3.2.8) lib/action_dispatch/middleware/debug_exceptions.rb:21:in `call' actionpack (3.2.8) lib/action_dispatch/middleware/show_exceptions.rb:56:in `call' railties (3.2.8) lib/rails/rack/logger.rb:26:in `call_app' ... Disagree with your fix, why not change the form method? Thank you! =) Committed in trunk r10709, 2.1-stable r10710, and 1.4-stable r10711.
