説明 1. Create new issue 2. Attach a file 3. Press "Submit" button In notification email i can't see any links to attachments But if i try update existing issue and attach file to it - i see a link to it in notification email Someone else with the same problem: http://www.redmine.org/boards/2/topics/31443 journals Not a defect but the expected behavior. Closing it as the feature has been requested multiple times already, see #3760. I'm reopening it as it's not the same as #3760 (links to attachments vs. attaching the files to the email). Added in r11853. related_issues relates,New,3760,E-mail notifications for issue update/creation should include the attachments in the email relates,Closed,2724,Display attachment names in email notifications
