**説明**

It would be nice to be able to render a Readme.txt file from a repository directory directly in the "repository" view. Similar to "GitLab": <http://demo.gitlabhq.com/rails/tree/master/actionmailer>

## journals

## related issues

relates,Closed,13431,it would be nice to render the markup language in the "Repository" view  
 duplicates,Closed,9163,Automatic display of README files when browsing repo.
