<b>説明</b>			
For example: if an issue has 20 hours assigned and 10 hours are done (via commit or time tracking for the ticket on the web interface) the done ratio should be automatically updated to 50% until a customizable value (for example 80%).			
journals			
<p>For reference: #13400 contains a patch that implements this</p> <p>FTR, this issue is actually a duplicate of #952. I'll keep it as it is since this one is already scheduled.</p> <p>For an overview of more duplicates see <a href="#">[[DoneRatio_issues_overview]]</a>.</p>
