**説明**

My thumbs attachments url are being generated like this

<http://buck-assets-production.s3.amazonaws.com/attachments/thumbnail/>

```
def link_to_attachment(attachment, options={})
  text = options.delete(:text) || attachment.filename
  route_method = options.delete(:download) ? :download_named_attachment_path : :named_attachment_path
  html_options = options.slice!(:only_path)
  url = send(route_method, attachment, attachment.filename, options)
  link_to text, url, html_options
end
```

this line have a "!" on end of slice

```
html_options = options.slice!(:only_path)
```

should not be without "!" ?

```
html_options = options.slice(:only_path)
```

**journals**

So the problem is the image\_tag that concats ActionController::Base.asset\_host to thumbs url

```
def thumbnail_tag(attachment)
  link_to image_tag(thumbnail_path(attachment),
    named_attachment_path(attachment, attachment.filename),
    :title => attachment.filename)
end
```

the correct one should be

```
def thumbnail_tag(attachment)
  image_tag = tag(:img, :src => thumbnail_path(attachment), :alt => attachment.filename)
  link_to image_tag,
    named_attachment_path(attachment, attachment.filename),
    :title => attachment.filename)
end
```

It seems that AttachmentHelper#link\_to\_attachment works correctly. In the trunk r21049, @application\_helper\_test.rb@ with the following patch does not fail.

```
diff --git a/test/helpers/application_helper_test.rb b/test/helpers/application_helper_test.rb
index 730023443..e50f1ad1e 100644
--- a/test/helpers/application_helper_test.rb
+++ b/test/helpers/application_helper_test.rb
