<b>説明</b>			
<p>Sometimes I need to include more than three criteria in report (for example, Project-&gt;Issue-&gt;Activity-&gt;User). I was surprised to know that this constant (3) is hardcoded inside two files: /app/views/timelog/report.html.erb:27 and /lib/redmine/helpers/time_report.rb:30 .</p> <p>If I want to increase this constant, I have to apply a patch to these two files (and there is no other way, since TimeReport resizes the 'criteria' array to 3 or less in initialization). It'd be better, if I can change this constant somewhere in redmine's configuration.</p>
