説明

When I requested an old version wiki-page using REST API with version, Redmine respond contents with wrong comments.

see below:

<http://www.redmine.org/projects/redmine/wiki/Logo/24.json>

<http://www.redmine.org/projects/redmine/wiki/Logo/24>

@24.json@ should have "comments": "Adds license details" but it returns "Spam squashing"

I attached a patch for @app/views/wiki/show.api.rsb@ with additional tests.

journals

Fix committed, thanks for pointing this out.

Merged.
