説明 I have successfully configured e-mail notification for Redmine. Everything works fine except notification when <i>Document added</i> is set in +Administration/Settings/Email notifications+. It doesn't work even when I set option <i>Default notification option</i> to <i>For any event in all my project</i>. I have checked the old issues but they and their solutions seems not related to my issue (old versions of REDMINE, not configured e-mai settings and so on). My configuration is: Redmine 2.4.2.stable Default administrator account changed Attachments directory writable Plugin assets directory writable RMagick available (optional) ImageMagick convert available (optional) Environment: Redmine version 2.4.2.stable Ruby version 1.8.7-p352 (2011-06-30) [x86_64-linux] Rails version 3.2.16 Environment production Database adapter MySQL SCM: Subversion 1.6.11 Git 1.7.1 Filesystem Redmine plugins: redmine_better_gantt_chart 0.9.0 redmine_rt_custom_field 0.1.1			
journals Try without plugin. Test coveres. http://www.redmine.org/projects/redmine/repository/entry/tags/2.4.3/test/unit/document_test.rb#L31 Hi, Toshi!			

Thank you for your answer! Unfortunately I can't uninstall plugins. Deinstallation proceeds without any error but plugins still "available on the Administration page":<http://www.redmine.org/issues/15951#change-54626>

It seems that I have to reinstall Redmine from the beginning.

Regards,

Andrey Ivanov

+1

Admin>Settings>Email Notifications> CHECK Documents Added

Email people who are involved or watching.

Does not send email notifications upon new added documents.
