

Custom Issue field is not saved while issue is created

2022/05/09 17:15 - Admin Redmine

ステータス: Needs feedback 優先度: 通常 担当者: カテゴリ: 対象バージョン: Redmineorg_URL: https://www.redmine.org/issues/16299 category_id: 0 version_id: 0 issue_org_id: 16299 author_id: 97237 assigned_to_id: 0 comments: 5	開始日: 2022/05/09 期日: 進捗率: 0% 予定工数: 0.00時間 作業時間: 0.00時間 status_id: 10 tracker_id: 1 plus1: 0 affected_version: closed_on: affected_version_id: 78
説明 Steps to reproduce: • Add custom field in "Issue" section (Administration->Custom Fields->Issues->New Custom Field). Assign this custom field to some project, for example "TestPr" • Go to "TestPr", click "New issue" • Fill the issue, fill created custom field • Click "Create" Expected outcome: The custom field has value equal to the filled one Percieved outcome: The custom field has no value (it is empty) Additional information: After issue is created I can click "update" and then I can edit and save this custom field without any problems. Environment: Redmine version 2.4.3.stable Ruby version 2.0.0-p353 (2013-11-22) [x86_64-linux] Rails version 3.2.16 Environment development Database adapter Mysql2	
journals I'm sorry, I have forgotten to fill-in affected version 2.4.3. No I cannot edit this field :(. It just works for me, do you have any plugins installed? Problem still exists.
