説明

I recently changed the default columns list in Administration -> Settings -> Issue Tracking tab, which works when looking at the list of issues, but has no effect on the list of Subtasks displayed on an Issue details page. (See attached images.)

Environment:
Redmine version 2.5.0.stable.12980
Ruby version 1.9.3-p484 (2013-11-22) [x86_64-linux]
Rails version 3.2.17
Environment production
Database adapter Mysql2
Redmine plugins:
redmine_dmsf 1.4.8 devel
redmine_time_tracker 0.4

journals

I'm interested in resolving this issue too
