| <b>説明</b><br>A client of "Planio": <a href="https://plan.io">https://plan.io</a> has created a repository with the identifier @statistics@ and was unable to access that repository via the web UI. While investigating this issue, we discovered that the reserved words list for repository identifiers (source:/tags/2.5.1/app/models/repository.rb#L43) is incomplete (@browse@ and others are missing) or wrong (@stats@ should be @statistics@, @show@ is double).<br>journals<br>The attached patch fixes this and has a list of reserved words as per @rake routes   grep repository@ which should be complete. This doesn't handle possibly existing repos with those identifiers though.<br><br>Committed in r13127, thanks.<br><br>Merged. |                                      |                      |            |
