<b>説明</b>			
Hello,			
I guess I've found bug with Issues API. The problem exists with query like this: @/issues.json?limit=100&offset=0&project_id=30&status_id=5&closed_on=<2014-04-01&sort=closed_on@			
The following query works just like it is supposed to @/issues.json?limit=100&offset=0&project_id=30&status_id=5&closed_on=<=2014-04-01&sort=closed_on@			
The difference is in equal sign in closed_on parameter. I think when I'm avoiding equal sign, the query should return issues with closed date LESS THAN provided date. However query returns error in paramer closed on.			
Both queries are passed in url-encoded format.			
Info about installation:			
Redmine version:	2.5.0.stable		
Ruby version:	2.0.0-p353 (2013-11-22) [x86_64-linux]		
Rails version:	3.2.17		
Environment:	production		
Database adapter:	Mysql2
