説明

Ordered lists look like this at the moment:

```
1. Masteritem 1
  1. subitem 1
  2. subitem 2
  3. subitem 3
2. Masteritem 2
```

It would be nice if they would look like this:

```
1. Masteritem 1
  1.1. subitem 1
  1.2. subitem 2
  1.3. subitem 3
2. Masteritem 2
```

Of course, this should be configurable globally and per project.

journals

+1

I don't think this should be a global setting, but another wiki-syntax f.e.

```
# item 1
## subitem 1.1
## subitem 1.2
## subitem 1.3
# item 2
## subitem 2.1
## subitem 2.2
## subitem 2.3
```

gives

```
1. item 1
  1. subitem 1.1
  2. subitem 1.2
  3. subitem 1.3
```

- 2. item 2
 - 2.1. subitem 2.1
 - 2.2. subitem 2.2
 - 2.3. subitem 2.3

Wim, this syntax doesn't work.

related_issues

relates,New,18032,Continued numbered lists (#_) are not working as the textile syntax expects
