| <div>説明</div> <div>I'd like the ability to update the "Assigned To" field to certain macros when an issue status is updated to certain statuses. For example, if I change the status to something like "Awaiting More Information," I'd like the Assigned To field to automatically be updated to the reporter (perhaps as a &lt;&gt; macro, similar to &lt;&gt;). This could be accomplished by adding a field to the Issue Statuses interface in administrative settings.</div> |                                                                                                                                                                                                                                                               |
| <div>journals</div> <div>try this plugin</div> <div><a href="http://www.redmine.org/plugins/custom-workflows">http://www.redmine.org/plugins/custom-workflows</a></div> <div>the code would look like.</div> <div>self.assigned_to_id = User.find_by_login("ChrisBush").id if status_id == 14</div> <div>it runs great for me. Im using redmine 2.6</div>                                                                                                                         |                                                                                                                                                                                                                                                               |
