説明

A little but simple to realize improvement:

When you go to the wiki and click the Index by date link you could show the revision number with each entry. And also you could show a link to the diff view, comparing to the previous link. With this one can quickly watch what has changed.

So that it looks similar to this example:

h2. 2015-06-16

- [DeEmailConfiguration](#) "#8":./projects/redmine/wiki/DeEmailConfiguration/8 ("diff":
http://www.redmine.org/projects/redmine/wiki/DeEmailConfiguration/diff?utf8=%E2%9C%93&version=8&version_from=7&commit=View+Differences)
