説明 The Activity section is naturally understood as showing all recent activity on a project. However, when I change an issue's subject, priority, or assignee, the activity section does not reflect any of these actions. Activity page does show changes made to an Issue's status or if any comments are added to the issue. workaround Use workaround. I have created a patch, so please use it if you need it. https://github.com/redmine/redmine/compare/2f0f66bb29fb554f8e83019bcce7734265e6725c...196d5ba64c57069168a99f658c940f408a07f09f Below is my Redmine fork. https://github.com/y503unavailable/redmine/tree/feature-39-activitylist (Sorry Japanese Only) https://redmine.tokyo/issues/1192			
journals +1 I also agree with displaying custom field changes and non-status changes in the activity list. I have created a patch, so please use it if you need it. https://github.com/redmine/redmine/compare/2f0f66bb29fb554f8e83019bcce7734265e6725c...196d5ba64c57069168a99f658c940f408a07f09f Below is my Redmine fork. https://github.com/y503unavailable/redmine/tree/feature-39-activitylist I am remodeling the trunk. Includes following changes. https://www.redmine.org/issues/5358#note-108 https://www.redmine.org/issues/4939#note-56
