説明

I frequently bcc redmine, when I send project updates to clients.

In the case redmine is not the only receiptient, I'd appreciate an option to hardcopy the email header into the ticket note like:

Update from E-Mail

To:

Cc:

journals

+1

Hi,

is there an option to assign this issue to current development version?

Adam Nie ścierowicz wrote:

is there an option to assign this issue to current development version?

The target version for this issue cannot be set because no one has posted a patch yet.
