説明 I tried to sort users (mainly in watchers list) in a different order than the order of displaing them. While users are to be displayed in the 'firstname lastname' order, I wanted to sort them by their lastname ('lastname firstname'), for example: "John Doe, Ann Smith" instead of the default sorting for this type of display "Ann Smith, John Doe". I changed the order the 'order' field in /models/user.rb but it seems that it affected nothing - the users are still ordered according to the setting in 'string' field. What does the 'order' do then? Environment: <table><tr><td>Redmine version</td><td>2.4.2.stable</td></tr><tr><td>Ruby version</td><td>1.9.3-p484</td></tr><tr><td>Rails version</td><td>3.2.16</td></tr></table>				Redmine version	2.4.2.stable	Ruby version	1.9.3-p484	Rails version	3.2.16
Redmine version	2.4.2.stable								
Ruby version	1.9.3-p484								
Rails version	3.2.16
