説明 Hi. Redmine version 3.3.0.stable Ruby version 2.2.2-p95 (2015-04-13) [x86_64-linux] Rails version 4.2.6 Firefox version 47.0.1. All datepickers (in Issues especially) don't show (see screenshot in attachments). In Chrome, IE all is right. What should i do to fix this problem? journals I cannot reproduce on vanilla Redmine version:3.3.0. Same problem in Chrome 52 Environment: Redmine version 3.3.0.stable Ruby version 2.0.0-p598 (2014-11-13) [x86_64-linux] Rails version 4.2.6 Environment production Database adapter PostgreSQL Google Chrome 52.0.2743.82 (64-bit) Same problem in Chrome Version 52.0.2743.116 (64-bit) Redmine version 3.3.0.stable.15748 Ruby version 2.3.0-p0 (2015-12-25) [x86_64-linux] Rails version 4.2.7.1 Environment production Database adapter MySQL2 Ok on Firefox 48 with redmine 3.3.0 stable and FF 48 on Linux and windows, it doesn't work. Also with IE 11 it doesn't work. for better understanding: the date picker at the issues are not displayed, the date picker at log time works fine Redmine version 3.3.0.stable	

Ruby version	2.3.1-p112	(2016-04-26)	[x86_64-linux-gnu]
Rails version	4.2.6		
Environment	production		
Database adapter	Mysql2		

Clear cache and cookies. Then it start to work but probably by using native browser's date picker.

related_issues
relates,New,23224,Datepicker doesn't obey the user's settings format
